Forecast For Northwest England
Issued by Met Office Exeter
at 1600 on Sunday 18 Apr 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Remaining settled and dry.

This Evening and Tonight:
During the evening and overnight patchy cloud becomes confined to the west, with lengthy clear spells developing from the east. A cold night with some frost, particularly in the east, and light winds. Minimum temperature -1 deg C (30 deg F).

Monday:
A frosty start for some, then feeling rather warm with plenty of sunshine through the day. Patchy cloud increasing through the evening and overnight leading to a largely frost-free night. Maximum temperature 17 deg C (63 deg F).

Outlook for Tuesday to Thursday:
Bright spells but the odd shower on Tuesday. Patchy rain to start Wednesday, but turning sunnier later. Dry with plenty of sunny spells on Thursday. Some night frost.
